

# Frontenac, Lennox and Addington Science Fair

## Ethics and Your Virtual Science Fair Project

**All projects involving human or animal research require specific approval from the FLASF ethics committee, prior to beginning any work on your project.**

Students should review the documents relevant to their project to ensure their project adheres to these policies.

If the project involves any animal or human testing, the student must contact FLASF's Ethics coordinator at [ethics@flasf.on.ca](mailto:ethics@flasf.on.ca). Once approved, the student needs to complete all necessary documents, letters of permission for participants (if applicable), and required approval forms to [ethics@flasf.on.ca](mailto:ethics@flasf.on.ca) one week before the fair or earlier. All hard copies must be available during judging.

## Policy Documents

	In English	en français
Participation of Humans in Research – Low Risk	<a href="#">Humans in Research – Low Risk</a>	<a href="#">sujets humains – faible risque</a>
Participation of Humans in Research – Significant Risk	<a href="#">Humans in Research – Significant Risk</a>	<a href="#">sujets humains – risque élevé</a>
Use of Animals in Research	<a href="#">Invertebrates</a>  <a href="#">Vertebrates</a>	<a href="#">animaux</a>

# Approval Forms

Participation of Humans – Low Risk	<a href="#">Human Low Risk Project Forms</a>
Participation of Humans – Significant Risk	<a href="#">Human Significant Risk Project Forms</a>
Use of Animals	<a href="#">Vertebrate Forms</a> <a href="#">Interbrate Information</a>

## Contact Us:

If you have any questions about FLASF Science Fair ethics policies or procedures or if you are required to submit forms prior to the day-of-fair because your project includes animal or human testing, please ask the ethics coordinator at [ethics@flasf.on.ca](mailto:ethics@flasf.on.ca)
